SUMMARY

With over 6 months of experience, I am a proficient web developer specializing in creating both static and dynamic websites. Skilled in HTML, CSS, Bootstrap, JavaScript, and React, I bring projects to life with seamless functionality and stunning design. Let's collaborate to elevate your digital presence and achieve your goals.

TECHNOLOGIES

HTML 5, CSS 3, Sass, Bootstrap, JavaScript, React, jQuery, Git, Photoshop, Figma.

EXPERIENCE

- As a front-end developer at **DigniTech** since September 15, 2023, I've contributed to transformative projects, leveraging HTML, CSS, JavaScript, Bootstrap, and React. Collaborating with talented teams, I've crafted dynamic and user-friendly websites, driving enhanced user engagement and satisfaction.
- Developed responsive web pages using HTML5, CSS3, and Bootstrap, ensuring cross-browser compatibility and adherence to web standards.
- Utilized Sass to write modular and maintainable CSS code, improving development efficiency and enabling easy customization.
- Implemented dynamic user interactions and enhanced website functionality using jQuery and JavaScript.
- Collaborated with designers to translate Photoshop designs into pixel-perfect web interfaces, paying attention to details and maintaining design integrity.
- Integrated CSS animations and transitions to create visually engaging and interactive elements, improving user experience.
- Optimized website performance by optimizing code, minimizing file sizes, and implementing efficient caching strategies.

PROJECTS

1. SCANZU: - [PROJECT LINK]

Description:

Introducing Scanzu, a groundbreaking project developed by me for my company Dignitech. Leveraging HTML, CSS, Bootstrap, and JavaScript, I spearheaded the end-to-end creation of Scanzu for our company. This innovative solution seamlessly digitizes documents, enhancing workflow efficiency and productivity.

2. ALI-TOUR : - [PROJECT LINK]

Description:

Introducing Ali-Tour, a dynamic project developed by me for my company Dignitech. Harnessing the power of HTML, CSS, Bootstrap, JavaScript, and Chart.js, Ali-Tour offers an immersive tour management solution. From itinerary planning to real-time analytics, elevate your travel experiences with Ali-Tour.

3. GCSRM: - [PROJECT LINK]

Description:

Introducing GCSRM, a bespoke project meticulously crafted by Dignitech. Leveraging HTML, CSS, Bootstrap, and basic JS, GCSRM empowers businesses with comprehensive Customer Relationship Management. Seamlessly manage interactions, streamline workflows, and enhance customer satisfaction with GCSRM's intuitive interface and robust functionality.

4. LCO e-learning: - [PROJECT LINK]

Description:

This website is designed with a simple and sober aesthetic, utilizing the power of Bootstrap and Sass. By leveraging Bootstrap's responsive grid system and harnessing Sass's modular CSS capabilities, we have created a clean and elegant web presence.
